Aaron,

Can Mursau get an amendment drafted per DOT's instructions below?

Subject: RE: SB 510

DOT Rationale for the suggested changes (referenced in my initial email below) are as follows:

Changes on Page 4:

- Currently the bill does not set a time limit in which the tribal facility must contact the county assessment agency. There should be a 72 hour timeframe added. A failure to adequately and promptly communicate between these two entities will result in DMV personnel repeating tasks unnecessarily.
- The words "the department of transportation and" should be removed from page 4 line 1 as the county assessment agency is the only entity that needs to be notified at that point in the process.
- Furthermore, on page 4, the word "conducted" in line 3 should be replaced with "been contacted for." This would document the need for the approved tribal treatment facility to contact the county assessment agency to prevent the county agency from putting the individual in non-compliance.

Changes on Page 5:

- This will allow the entity that originally provided the assessment to maintain ownership of the process from beginning to end. Otherwise the tribal agency could potentially perform the assessment while the county would then need to provide notice of it to DMV.
- The "in the manner prescribed" statement ensures that the electronic systems are utilized to send this information in to DMV rather than submission on paper by mail. Manually processing this new work would result in an increase in FTE cost by 1.0.

Thanks.

Tom and Tim,

The Department is interested in seeking a couple of technical changes to SB 510. Can we set up a meeting between myself and the both of you to discuss?

If so, please propose a date(s)/time(s), and I will accommodate to both of your schedules.
